Dear John

I am very happy to write this letter to you my sponsor

Last year we did not go to school because there were a sick that called corona virus or covid nineteen that kills people badly. This virus is very dangerous. It starts from china and come to another countries until it reaches into my country.

And when it reaches at our countries we go to level 4. In level 4 everythings closed and we stay at home. Outside were soldiers and Police going up and down looking at the people who ^{people} are going up and down. When they found ~~them~~ ^{people} they beat them badly.

The people were going outside when they ^{are} ~~found~~ going to buy thier needs only. All shops were closed except the one who sell food. The shop that sells clothes were closed and the shop that sells food were open. There were only four taxi that worked

And that four taxi was taking seven people only and last was ~~taxi~~ taking three people only. In level three we were going up and down with face mask. When you don't have mask and the police to found you with not wearing mask the beat you.

In my family we are all still alive and this ~~Si~~ corona virus did not kill us, and we are all still safe. Everyday we wash our hands with soap and running water to protect ourself to this virus. I hope you are still safe.

Your loving friend
