18 December 2020

Dear [REDACTED]

I am very happy to write this letter to you after a very long time and I hope you are well even though Corona Virus affects our lives.

I am very confused by this Covid 19 because it caused hunger and poverty, I wonder I heard through the radio that there is in United States of America it killed many people. It is very dangerous.

We have opened Schools on the 20 December and we are now working hard to cover Form D Syllabus as we ended eight months at home. We live by wearing face masks and sanitising our hands. We also try to keep social distancing to protect ~~our~~ ourselves against this harmful disease.

I like to plant vegetables and crops in my garden to stop this much hunger by supplying people in my village. In my village, there are children very poor and they survive by eating at school.

Please ^{see} to it that you and your family
are safe from Corona. I like to work hard
in order to pass Form D.

I hope you ^{will celebrate} spend your Christmas holidays
well together with New Year. Please protect
yourself by wearing your mask ~~and~~ and
stay at your home.

Yours faithfully
