11<sup>th</sup> December 2020

Dear [REDACTED]

I am <sup>not</sup> doing well in this <sup>bad</sup> situation of corona virus (Covid-19) a very dangerous virus which kills people daily. And how do you feel about this? However, I'm still safe with my family and I think you are also safe with your family too.

2020 is the year I shall never forget because we took seven to eight months without going to school. Our teachers and parents were very worried about this lockdown because some of our parents were not working and that caused lot of poverty in our community and most people ended up stealing and that was not fair.

The school opened on the 6<sup>th</sup> October 2020 and we were very happy about that. One week before opening we went to school and cleaned the classrooms and the school campus. ~~At~~ The first day at school we felt like we were in a new

place where we don't know. After some few days we felt that <sup>we</sup> were at school and we focused more on our studies.

I promise you that next year I will be in tertiary level. ~~From~~ After we had opened the schools, I am working very hard in order to fulfil my dreams and I can feel that I am going to pass very well because I have self confidence. Please trust me because I'm very sure about what I am saying.

I am looking forward to hear from you. I think you are still in a good health with your friends and family. How is it in your country? In Leotho we can see lot of rain.

May God bless you and your family.

Yours Faithfully,
